Access to Meetings and Information

- Members of the public are welcome to attend meetings of the Council, its Committees and Sub-Committees. You may remain present throughout them except during the consideration of exempt or confidential information.
- All meetings are held at the Council Offices, Whitfield unless otherwise indicated on the front page of the agenda. There is step free access via the Council Chamber entrance and an accessible toilet is available in the foyer. In addition, there is a PA system and hearing loop within the Council Chamber.
- In order to facilitate the broadcast of meetings there have been cameras set up in the Council Chamber that communicate with Microsoft Teams Live. This enables meetings held in the Council Chamber to be broadcast for public viewing through the Council's website.

The meetings in which these cameras will be used include meetings of: (a) Council;

(b) Cabinet; (c) Dover Joint Transportation Advisory Board; (d) General Purposes Committee; (e) Electoral Matters Committee; (f) Governance Committee; (g) Planning Committee; (h) General Purposes Committee and (i) Overview and Scrutiny Committee. Only agenda items open to the press and public to view will be broadcast.

- These recordings will be retained for 30 days from the date of the meeting. The recordings will be uploaded to YouTube as soon as practicable after the day of the meeting. In normal circumstances this would be within 2 working days of the meeting. However, there may be circumstances where it will take longer. The recordings can be viewed on the Council's YouTube Channel - [Council meetings - YouTube \(@doverdc\)](#)
 - The broadcasts and recordings are the copyright of the Council and may not be copied, displayed or published to the public, adapted or dealt with in any other way restricted by the Copyright, Designs and Patents Act 1988.
 - The Council will not make available copies of the recordings either in whole or in part other than in compliance with a legal requirement arising under The Freedom of Information Act 2000, UK GDPR, The Data Protection Act 2018 or some other enactment, rule of law or direction of a court or tribunal which is binding on it.
 - Agenda papers are published five clear working days before the meeting. Alternatively, a limited supply of agendas will be available at the meeting, free of charge, and all agendas, reports and minutes can be viewed and downloaded from our website www.dover.gov.uk. Minutes will be published on our website as soon as practicably possible after each meeting. All agenda papers and minutes are available for public inspection for a period of six years from the date of the meeting.
 - Members of the Council may receive confidential information relating to personal data as part of an item of an exempt or confidential business on the agenda. It is each Member's responsibility to ensure that this information is handled securely and confidentially as required under data protection legislation. This information must only be retained for as long as necessary and when no longer required disposed of via a shredder or the Council's secure disposal arrangements.
- For further information about how this information should be processed, please view the Council's Data Protection Policy and Appropriate Policy Document at www.dover.gov.uk/Corporate-Information/PDF/Data-Protection-Policy.pdf
- If you require any further information about the contents of this agenda or your right to gain access to information held by the Council please contact Democratic Services, democraticservices@dover.gov.uk, telephone: (01304) 872303 or email: democraticservices@dover.gov.uk for details.

Large print copies of this agenda can be supplied on request.

Declarations of Interest

Disclosable Pecuniary Interest (DPI)

Where a Member has a new or registered DPI in a matter under consideration they must disclose that they have an interest and, unless the Monitoring Officer has agreed in advance that the DPI is a 'Sensitive Interest', explain the nature of that interest at the meeting. The Member must withdraw from the meeting at the commencement of the consideration of any matter in which they have declared a DPI and must not participate in any discussion of, or vote taken on, the matter unless they have been granted a dispensation permitting them to do so. If during the consideration of any item a Member becomes aware that they have a DPI in the matter they should declare the interest immediately and, subject to any dispensations, withdraw from the meeting.

Other Significant Interest (OSI)

Where a Member is declaring an OSI they must also disclose the interest and explain the nature of the interest at the meeting. The Member must withdraw from the meeting at the commencement of the consideration of any matter in which they have declared a OSI and must not participate in any discussion of, or vote taken on, the matter unless they have been granted a dispensation to do so or the meeting is one at which members of the public are permitted to speak for the purpose of making representations, answering questions or giving evidence relating to the matter. In the latter case, the Member may only participate on the same basis as a member of the public and cannot participate in any discussion of, or vote taken on, the matter and must withdraw from the meeting in accordance with the Council's procedure rules.

Voluntary Announcement of Other Interests (VAOI)

Where a Member does not have either a DPI or OSI but is of the opinion that for transparency reasons alone s/he should make an announcement in respect of a matter under consideration, they can make a VAOI. A Member declaring a VAOI may still remain at the meeting and vote on the matter under consideration.

Note to the Code:

Situations in which a Member may wish to make a VAOI include membership of outside bodies that have made representations on agenda items; where a Member knows a person involved, but does not have a close association with that person; or where an item would affect the well-being of a Member, relative, close associate, employer, etc. but not his/her financial position. It should be emphasised that an effect on the financial position of a Member, relative, close associate, employer, etc OR an application made by a Member, relative, close associate, employer, etc would both probably constitute either an OSI or in some cases a DPI.

Subject:	INFRASTRUCTURE FUNDING STATEMENT 2022/2023
Meeting and Date:	Cabinet – 2 October 2023
Report of:	Sarah Platts, Head of Planning and Development
Portfolio Holder:	Councillor Edward Biggs, Portfolio Holder for Planning and Built Environment
Decision Type:	Key
Classification:	Unrestricted

Purpose of the report: To seek Cabinet approval of the Infrastructure Funding Statement 2022/23 for publication on the Council's website.

- Recommendation:**
1. That Cabinet approves the Infrastructure Funding Statement 2022/23 (Appendix 1) and supporting CSV spreadsheets (Appendix 2), to be published on the Council's website by no later than 31 December 2023.
 2. That Cabinet delegates to the Strategic Director (Place and Environment), in consultation with the Portfolio Holder for Planning and Built Environment, the incorporation of any minor factual amendments to the Infrastructure Funding Statement, as required.
-

1. Summary

- 1.1 This report seeks approval for and publication of the annual Infrastructure Funding Statement for the 2022/23 financial year (Appendix 1) and supporting CSV spreadsheets (Appendix 2). These documents set out details of all planning obligations (financial and non-financial) secured through the section 106 process from planning consents.

2. Introduction and Background

- 2.1 Planning obligations are legal obligations entered into to mitigate the impacts of a development proposal. The Community Infrastructure Levy Regulations 2010 (CIL Regulations) require that from the financial year 2019/2020 onwards, any local authority that has received developer obligations (either through section 106 planning obligations or the Community Infrastructure Levy (CIL)) must publish an Infrastructure Funding Statement (IFS) by 31 December each year.
- 2.2 The CIL regulations mandate exactly what information is to be provided within the IFS document, the Government's preferred format for reporting the required information and makes recommendations as to additional information local authorities could publish alongside the statement.
- 2.3 The regulations require that the IFS comprises the following three parts:
 - 1) A statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by CIL.
 - 2) A CIL report, in relation to the previous financial year, which includes matters specified within the regulations.

- 3) A planning obligations report, in relation to the reported year, which includes matters specified within the regulations. This is referred to as the “Section 106 report”.
- 2.4 As Dover District Council does not operate CIL, the Council’s IFS reports a ‘nil return’ for parts 1 and 2. However, part 3 ‘Section 106 report’ is required to be completed.
- 2.5 In addition to the regulatory requirements above, detailed guidance published alongside the amended CIL regulations sets out recommendations of how the government would like this data formatted, labelled, and published in CSV spreadsheet form.
- 2.6 Additionally, the guidance also recommends the IFS sets out anticipated future spending priorities and the types of infrastructure that may be wholly or partly funded by planning obligations.

3. Identification of Options

- 3.1 The matters specified by the Regulations to be included within the section 106 part of the IFS report are:
- The total amount of money to be provided under any planning obligations agreed within the reported year (1st April – 31st March).
 - The total amount of money under any planning obligations which was received during that reported year.
 - The total amount of money under any planning obligations which was received before the reported year, which has not been allocated to a project.
 - Summary details of any non-monetary contributions to be provided under planning obligations which were entered into during the reported year.
 - The total amount of money allocated but not spent during the reported year for funding infrastructure. This should include summary details of the items of infrastructure on which the money has been allocated, and the amount of money allocated to each item.
 - The total spent by the authority during the reported year (which includes transferring it to another organisation, such as KCC, to spend). This should include summary details of the items of infrastructure on which the money was spent, and the amount of money spent on each item. Any money spent on repaying money borrowed or on monitoring planning obligations should be explicitly identified.
 - The total amount of money that has been collected during any year and retained (held) at the end of the reported year and, where any of the retained money has been allocated for the purpose of longer-term maintenance (commuted sums), also identifying separately the total amount of commuted sums held.

Headline and Summary data from Infrastructure Funding Statement 2022/23

- 3.2 With regards to the regulatory requirements set out above, the full details are contained within the IFS report at Appendix 1. The headline figures are summarised in the below table, which is also included within the IFS document:

Section 106 monies held	Amount (£)
Monetary contributions agreed within the financial year 2022/23 (New section 106 agreements)	£708,155.29
Non-monetary contributions agreed within the financial year 2022/23 (New section 106 agreements)	None
Monetary contributions received during the financial year 2022/23	£739,380.73
Total amount spent during the financial year 2022/23	£458,022.96
Total amount spent on repaying borrowed money during the financial year 2022/23	None
Total amount that has been collected during the financial year 2022/23 for the purpose of longer- term maintenance.	£21,322.26
All section 106 monies held as of 31st March 2023	£7,386,728.26 *

**Note on total monies held – we are holding some small denominations of funds (£10 or less) in various historic S106 category accounts. This is due to several minor discrepancies in the financial systems between invoice and payments out to projects. This is currently being combined into a single account by the finance department to review how this may be re categorised for future spend. For this report, the funds are included within the total.*

Allocated/Unallocated Funds

- 3.3 “Allocated” relates to a decision that has been made to commit the section 106 funds to a specific item of infrastructure / project. For most section 106 agreements, the decision on project allocation has been made at the planning application stage with each infrastructure or project requirement specified within the section 106 legal agreement. Some other allocated funds may be those that were initially not defined within the agreement but have been subsequently assigned to a specific project by DDC and are now awaiting spend.
- 3.4 “Unallocated” money will still be bound by the terms of the section 106 legal agreement and, as a minimum, will be required to be spent on a particular infrastructure ‘type’ specified within the agreement i.e., affordable housing or equipped play areas. The section 106 legal agreement will usually specify criteria needing to be met for “unallocated” money to be allocated to a project. For example, the section 106 legal agreement may specify that the monies may only be spent on open space projects within a certain geographical area (such as a ward), but not a specific site, so although it is clear what type of infrastructure it will be spent on, it is not yet ‘allocated’ to a specific project/play area.
- 3.5 Of the total amount of section 106 funds held at the end of March 2023 (amounting to £7,386,728.26), £3,670,855.11 is awaiting allocation to a specific project (unallocated) and £3,715,873.15 is allocated to a specific infrastructure project but awaiting spend or transfer. This is broken down further in the below table:

Unallocated	Amount
Unallocated and unspent received before 2022/23 monitoring year	£3,297,839.94
Unallocated and received during 2022/23 monitoring year	£605,283.33
Total 'unallocated' balance end of 2022/23	£3,670,855.11
Allocated	Amount
Allocated and unspent received before 2022/3 monitoring year	£3,743,862.88
Allocated and received during 2022/23 monitoring year	£127,972.53
Total 'allocated' balance end of 2022/23	£3,715,873.15

- 3.6 The breakdowns of each of these amounts are within the CSV spreadsheets accompanying the report, shown at Appendix 2.
- 3.7 A large proportion of the unallocated funds (£2.36m) is held for affordable housing provision. The Council's Housing Development Department is currently progressing several options for spend of these funds and will continue to consider the most appropriate projects to which this funding should be directed. This will be reported to members as projects arise and require allocation of section 106 funds. Delivery of affordable housing is highlighted as a priority for future spend within the IFS report at Chapter 5 (future spending priorities for the council).
- 3.8 With regards to the allocated funds, much of this is simply held by DDC until a request is received for the funds to be transferred to the relevant provider. For example, this applies to section 106 funds required by KCC for their services (such as education, libraries, or highway improvements) or the NHS for GP services or health improvement services. These monies nevertheless still require reporting within the IFS report until the point at which they are transferred out.
- 3.9 DDC is responsible for the spend of a range of infrastructure and services funded through section 106 monies – including open space, play, sports, community projects, Special Protection Area (SPA)¹ mitigation and affordable housing. Some of the more significant amounts currently held include (these numbers are rounded):
- £1m towards sport and play in Aylesham.
 - £200k towards sport from Whitfield Urban Expansion Phase 1 application
 - £380k towards open space (including sport and children's play) elsewhere in the district.
 - £700k towards a Demand Responsive Bus service in Aylesham
 - £200k towards SPA mitigation

Future Section 106 Funds and Projections

- 3.10 Section 5 of the IFS takes account of the emerging Local Plan policies in relation to the collection of future developer contributions from new developments and the

¹ As required by Thanet Coast and Rye Bay Special Area of Protection (SPA) Mitigation and Monitoring Strategy [Thanet Coast and Sandwich Bay SPA Mitigation and Monitoring Strategy \(dover.gov.uk\)](https://www.dover.gov.uk)

projects identified in the Infrastructure Delivery Plan (IDP), including the critical strategic highway mitigation projects on the A2 for which a financial tariff is proposed to collect funds towards the delivery of these key junctions.

- 3.11 The IFS report also responds to the government guidance for it to set out estimated future infrastructure income figure by broad infrastructure type. This figure has been calculated by adding all the pending section 106 payments relating to planning permissions that have been agreed but not yet triggered and amounts to circa £16m. Some of these payments are not expected for several years, depending on the expected build out rates of the development and the likely trigger points for payment. The full details of this are set out within Section 6 of the IFS report and the CSV4 spreadsheet.

4. Evaluation of Options

- 4.1 Under Government legislation, the Council is required to produce an IFS by 31st December each year with one of its key purposes being to enable transparency for members of the public to view where section 106 funds have been secured and which projects they have, or will be, spent on.
- 4.2 The recommended option is to publish the full written report (Appendix 1), which is not a legislative requirement, alongside the required CSV spreadsheets (Appendix 2), as this offers important clarity for members of the public beyond what is afforded through CSV spreadsheets.
- 4.3 The alternative option is to publish only the CSV spreadsheets. This would be the minimum required to meet the regulation requirements, but as these are complex documents and are not straightforward to understand in isolation without the associated commentary, this option is not recommended.

5. Resource Implications

- 5.1 The production of the IFS and associated section 106 contribution monitoring will be delivered within existing resources in the Planning Policy and Projects Department.
- 5.2 Once agreed by Cabinet, a copy of the IFS 2022/23 and CSV spreadsheets will be made publicly available on the Council's website on or before 31st December 2023. There are no further resource implications in relation to the IFS 2022/23.

6. Climate Change and Environmental Implications

- 6.1 There will be no environmental or climate change implications as a consequence of this decision being taken.

7. Corporate Implications

- 7.1 Comment from the Director of Finance (linked to the MTFP): Accountancy has been consulted and has no further comments. (SK)
- 7.2 Comment from the Solicitor to the Council: The Solicitor to the Council has been consulted in the preparation of this report and has no further comments to make.
- 7.3 Comment from the Equalities Officer: 'This report regarding the Infrastructure Funding Statement 22/23 does not specifically highlight any equality implications, however in discharging their duties members are required to comply with the public sector equality

duty as set out in Section 149 of the Equality Act 2010

Chapter 1 – Introduction

What is the Infrastructure Funding Statement (IFS)?

1. The Infrastructure Funding Statement (IFS) provides a summary of Planning Obligations (often known as developer contributions) secured by the Council from new developments towards infrastructure, over a particular period. This statement is updated and published annually to reflect the summary of obligations and agreements for each monitoring period. The monitoring period runs from 1st April to 31st March. The IFS must be published by 31st December each year.
2. It has been produced following collaborative work with the Council's Accounts department and Kent County Council. Kent County Council are also required to produce their own Infrastructure Funding Statement which can be found on their website on the following link: [Kent County Council's IFS](#).

What are Planning Obligations?

3. Planning Obligations are legal agreements entered into with developers and landowners to mitigate the impacts of a development proposal. Planning obligations can be agreed to mitigate the impact of unacceptable development to make it acceptable in planning terms.
4. Planning obligations must meet the following legal tests if they are to constitute a reason to grant planning permission:
 - necessary to make the development acceptable in planning terms;
 - directly related to the development; and
 - fairly and reasonably related in scale and kind to the development.
5. Local authorities can, if appropriate, decide to set a Community Infrastructure Levy (CIL) for their area which is a fixed charge levied on new development to fund required infrastructure. Section 106 (S106) agreements are legal agreements between developers and the local council linked to planning permissions, and this is the system that Dover Council (the Council) uses to secure contributions.
6. CIL can be used alongside S106 agreements and planning conditions to seek contributions from developers for infrastructure. However, at the present time the Council doesn't operate CIL, or intend to implement CIL, so the Infrastructure Funding Statement (IFS) will be reporting on S106 agreements¹.

¹ This IFS may include contributions secured through other methods such as internal DDC transfers for sites delivered by DDC, or contributions secured through other developer obligation methods such as unilateral undertakings.

7. Further information on legislation governing planning obligations can be found on the government website on the following link: [Planning Obligations](#).

What should the Infrastructure Funding Statement contain?

8. The Community Infrastructure Levy (CIL) regulations (as amended on 01 September 2019) require Local Authorities to publish a statement at least once a year, that provides the following information:
- 1) A statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by Community Infrastructure Levy (CIL).
 - 2) A report about CIL, in relation to the previous financial year, which includes matters specified within the regulations.
 - 3) A report about planning obligations, in relation to the reported year, which includes matters specified within the regulations. This is referred to as the “Section 106 Report”.
9. The relevant legislation requires the following to be reported in the Section 106 Report:
- the total amount of money to be provided under any planning obligations which were entered into during the reported year;
 - the total amount of money under any planning obligations which was received during the reported year;
 - the total amount of money under any planning obligations which was received before the reported year which has not been allocated by the authority;
 - summary details of any non-monetary contributions to be provided under planning obligations which were entered into during the reported year, including details
 - in relation to affordable housing, the total number of units which will be provided;
 - in relation to educational facilities, the number of school places for pupils which will be provided, and the category of school at which they will be provided;
 - the total amount of money (received under any planning obligations) which was allocated but not spent during the reported year for funding infrastructure;
 - the total amount of money (received under any planning obligations) which was spent by the authority (including transferring it to another person to spend);
 - in relation to money (received under planning obligations) which was allocated by the authority but not spent during the reported year, summary details of the items of infrastructure on which the money has been allocated, and the amount of money allocated to each item;

- in relation to money (received under planning obligations) which was spent by the authority during the reported year (including transferring it to another person to spend), summary details of:
 - the items of infrastructure on which that money (received under planning obligations) was spent, and the amount spent on each item.
 - the amount of money (received under planning obligations) spent on repaying money borrowed, including any interest, with details of the items of infrastructure which that money was used to provide (wholly or in part).
 - the amount of money (received under planning obligations) spent in respect of monitoring (including reporting under regulation 121A) in relation to the delivery of planning obligations.
- the total amount of money (received under any planning obligations) during any year which was retained at the end of the reported year, and where any of the retained money has been allocated for the purposes of longer-term maintenance (“commuted sums”), also identify separately the total amount of commuted sums held.

The Structure of this IFS

The IFS provides information on:

- planning obligations within S106 agreements signed within the reporting year, which includes the nature and value of their financial contribution(s);
- details of S106 funding received by the council in the reporting year;
- details of S106 funding spent by the council in the reporting year;
- details of funding received before the monitoring year that is retained and whether it has been allocated or remains unallocated, and
- estimates of future S106 funding and future infrastructure projects and priorities.

10. This statement should be read in conjunction with the following CSV spreadsheets that are available on the Council’s website and produced in line with Government guidance:

[Note: links to spreadsheets CSV1-4 to be added later once they are live on the website]

- CSV1 New S106 agreements 2022-23²
- CSV2 Agreed Contributions 2022-23
- CSV3 Contribution transactions 2022-23
- CSV4 Future agreed provision 2022-23

² For submission to government these CSV files will be labelled as per government guidance as: CSV1 Developer-agreement-2022-23, CSV2 Developer-agreement-contribution-2022-23, CSV3 Developer-agreement-transaction-2022-23, CSV4 Developer-agreement-future-agreed-provision.

11. This Infrastructure Statement (IFS) covers the period **01 April 2022 to 31 March 2023**

What does ‘Allocated’ and ‘Unallocated’ mean?

12. As set out in the national guidance and for the purpose of this report, “allocated” means a decision has been made by the Council to commit funds to a specific item of infrastructure or project. For most Section 106 agreements, this decision has been made at the planning application stage with each infrastructure or project requirement specified within the legal agreement.

13. It is however important to note that “unallocated” money still sets out which infrastructure type it applies to and will still be bound by the terms of the Section 106 legal agreement and as a minimum will be required to be spent on the infrastructure type specified within the agreement, it is just that a specific project has not yet been decided.

14. Whilst this detail is summarised further within the spreadsheets that accompany this report, for the full details including limitations on spends, reference must always be made back to the individual Section 106 legal agreement which can be located on the Councils website through the Planning Application reference details.

Headline Figures

* These are minimum figures secured as on an outline application, contributions are calculated on final dwelling size which is yet to be determined by the Reserved Matters application.

19. The table above shows that the largest contribution category is Affordable Housing totalling £410,750.00. When collected, this sum will be transferred to the Affordable Housing Team within Dover District Council, to provide affordable housing in the district.

20. The details above can also be found on spreadsheet CSV2 - Agreed Contributions 2022-23. (Please note this document contains all applications; the applications received during 2022-23 monitoring period will appear towards the end of the spreadsheet). Chapter 3 - S106 Funds Retained

21. This section sets out S106 funds which were received prior to the 2022-23 monitoring year that are yet to be spent and remain 'held' by the Council. As set out above in this report "allocated" means a decision has been made by the local authority to commit funds to an item of infrastructure or project and "unallocated" money still sets out which infrastructure 'type' it applies to, but a specific project has not yet been decided.

Table 3 - S106 Receipts Retained (Allocated and Unallocated)

<u>Unallocated</u>	<u>Amount</u>
Unallocated and unspent received before 2022-23 monitoring year	£3,297,839.94
Unallocated and received during 2022-23 monitoring year	£605,283.33
Total 'unallocated' balance end of 2022-23	£3,670,855.11
<u>Allocated</u>	<u>Amount</u>
Allocated and unspent that had been received before 2022-23 monitoring year	£3,743,862.88
Allocated and received during 2022-23 monitoring year	£127,972.53
Total 'allocated' balance end of 2022-23	£3,715,873.15

22. Table 4 below provides summary details of infrastructure with **allocated** S106 funding that has not yet been spent, this is for all funding held by the Council at 31 March 2023, irrespective of when it was collected.

Money Borrowed and Repaid

26. During 2022-23 reporting year no S106 funding was spent on repaying borrowed money.

Money Returned

27. The Council has not returned any S106 funding to developers during 2022-23 for a failure to perform obligations set out in any S106 agreement.

Chapter 5 - Future Spending Priorities

28. Government guidance states that Infrastructure Funding Statements should set out future spending priorities on infrastructure and affordable housing in line with up to date or emerging plan policies.

Local Plan Infrastructure requirements

29. The Council published the new [Local Plan](#) for the district (Regulation 19 Submission Version) in December 2022, which is now at Examination stage. Ensuring that the right infrastructure is provided in the right place, at the right time, to support the scale of growth identified in the Plan will be integral to its successful delivery.
30. The Local Plan includes Policy SP11 - Infrastructure and Developer Contributions. This policy will enable the Council to require new or enhanced infrastructure through Planning Obligations. This policy will apply to all major development proposals.
31. The need for Affordable housing is essential and the future requirements are set out in a separate Strategic Policy in the Local Plan, Policy SP5. This sets out a requirement that 30% of housing in new developments must be affordable housing, with the exception of the existing Dover Urban Area, where viability work has concluded that it is not economically viable to provide affordable housing.
32. Strategic Transport improvements are also a key infrastructure priority for the district. The Local Plan contains Policy SP12 - Strategic Transport Infrastructure, which covers the Highway Network, and Bus and Rail infrastructure. The policy specifically covers the Strategic Highway network improvements needed at Whitfield and Duke of York Roundabouts and other A2 strategic junctions. In addition, it supports the longer-term improvements proposed by National Highways to implement the A2 Dover Access Project. With regards to rail and bus infrastructure, the policy supports the reduced journey time proposals for HS1, the continued delivery of the Dover Fastrack bus service and other local bus service provision.
33. In addition, the Local Plan includes Development Management policies which set out how some of the more local infrastructure requirements set out in Policy SP11 should be provided / calculated to meet the needs of new development. These include policies for Providing Open Space, Sports Provision and Community Facilities and Services, and several in relation to local transport and active travel.

Infrastructure Delivery Plan (IDP)

34. The Local Plan is supported by a number of [background documents](#), some of which include an audit of current infrastructure provision and highlights the future needs for certain types of infrastructure across the district. For site specific allocations within the Local Plan, the priority for Infrastructure is set out in the policy wording. This is all then detailed within the Infrastructure Delivery Plan (the IDP).
35. The IDP identifies specific infrastructure needs for the District over the plan period, covering all types of infrastructure services such as education, health, community, sports and open spaces, transport, water and other utilities which relate to Policy SP11. It sets out the priority of the infrastructure and expected delivery methods where this is known. It also includes detail of already planned infrastructure improvements / projects and how and when it will be delivered. The latest version (July 2023) of the IDP and appendices can be viewed here:
- [Infrastructure Delivery Plan - V3 July 2023 \(doverdistrictlocalplan.co.uk\)](#)
 - [Appendices to IDP V3 July 2023 \(doverdistrictlocalplan.co.uk\)](#)

Priorities for Section 106 spending

36. At the end of the reporting year March 2023, a significant amount of unallocated funding held by the Council relates to affordable housing provision, with just under £2.3 Million available funding for this purpose. Allocating this funding to appropriate affordable housing projects within the district remains a spending priority for the council.
37. The level and timing of S106 funding received will depend on the nature and scale of the developments that come forward, the number of implemented planning permissions, build-out rates, and the phasing of development etc. Future versions of this IFS will report on short and medium-term priorities for S106 expenditure as set out in the most up to date IDP (see above).

Chapter 6 - Estimated Future Income from signed S106 agreements.

38. Whilst it is difficult to predict what future S106 income might look like due to a number of uncertainties around site delivery, the Council is able to examine the current levels of infrastructure provision in existing S106 agreements that are yet to be realised. This section provides a picture of how much funding could be received from developer contributions (S106 agreements) if everything that has been agreed in currently signed S106 agreements is paid at the amounts listed (note many financial contributions are subject to indexation so figures are likely to increase as they are collected in future years).
39. Table 7 provides this estimated future infrastructure figure by broad infrastructure type. This figure has been calculated by adding up all the pending S106 payments that have been agreed but not yet triggered, up to 31st March 2023.
40. Note that this table does not include a duplicate of new signed agreements and contributions in the 2022-23 monitoring year to avoid duplication but when added together create a 'best estimate' of total future income expected through S106 developer obligations.
41. The anticipated payment terms have been estimated based on the current status of the development, for example whether the site has full consent or is under construction, and the 'trigger points' set out for payment terms in the S106 agreement i.e., 'prior to commencement', 'upon completion of 50 dwellings' or 'upon occupation of all dwellings'. Where there are several trigger points for compliance with a S106 agreement, one S106 infrastructure requirement could be split over more than one payment term.
42. The total estimated future income figure is **£15,547,880.25**. Further details of the developments providing the estimated S106 contributions listed in Table 7 can be found in CSV4 [\[link to CSV4 Spreadsheet added at publication\]](#).

⁶ Health and Social Care contributions are comprised of different subsections. For a detailed breakdown into these subsections please see CSV4 Future agreed contributions 2022-23.

⁷ Affordable Housing total contributions are difficult to estimate in all circumstances as many are granted under outline consents and the full details of the requirement that will be required as part of the Reserved Matters/Full applications are unknown. Most Affordable Housing provision is required as on-site delivery rather than off-site contribution so actual Affordable Housing delivery is higher than financial contributions alone.

⁹ Note that some open space provisions are unknown, in particular for Whitfield Urban Expansion which are to be agreed at each phase of development and most Open Space is provided on site, not as an off-site financial contribution.

¹⁰ Sustainable Travel contributions are comprised of 2 subsections: Travel plan and Bus Service For a detailed breakdown into these subsections please see CSV4 Future agreed contributions 2022-23.

¹¹ There is 1 Outline application where the financial contributions are yet to be decided by the reserved matters applications - DOV/14/00058. There are other contributions where there are more than one payment term and are unable to split in the short/medium/long so total calculations in payment terms will not add to full total in the final cell.

Appendix 1 - Major Sites Specific S106 Requirements

This appendix looks at major / strategic sites, to highlight agreed S106 funding and identify specific infrastructure requirements for these important sites. The figures contained in this section of the report are included in the main body of the IFS, but it is important that information about strategic sites can be looked at in isolation from the rest of the district to effectively monitor the delivery of infrastructure at these locations.

The tables on the following pages list the S106 provision for the 2 current major developments at Aylesham Village Expansion and Whitfield Urban Expansion in more detail, providing details of:

- Funding held by the council for the development detailing what infrastructure projects it will help to deliver.
- Future S106 provision that has yet to be collected or triggered and details of the infrastructure this will provide; and
- Expenditure of S106 funding with details of the infrastructure it has delivered.

Subject:	EQUALITY POLICY UPDATE
Meeting and Date:	Cabinet – 2 October 2023
Report of:	Rebecca Brough, Head of Corporate Services and Democracy
Portfolio Holder:	Councillor Sue Beer, Portfolio Holder for Finance, Governance, Climate Change and Environment
Decision Type:	Non-Key Executive
Classification:	Unrestricted

Purpose of the report:	To amend the Equality Policy pronoun guidance.
Recommendation:	To agree the amended guidance on pronouns that forms part of the Council's Equality Policy.

1. **Summary**

1.1 This report seeks to make an amendment to the Equality Policy in respect of its guidance on the use of pronouns.

2. **Introduction and Background**

2.1 The Cabinet agreed the current Equality Policy and the equality objectives for the period 2022-2026 at its meeting held on 7 November 2022. As part of this, a guidance note was included in respect of gender pronouns and those staff wishing to include their gender pronouns in their email signature were encouraged to do so.

2.2 This is increasingly used not only in public sector bodies but also in the private sector (for example Lloyds and Goldman Sachs) and on social media and is an important demonstration of inclusivity and a simple measure for preventing misgendering. The accidental misgendering (getting someone's gender wrong) of a person can be embarrassing for the person who does it and cause hurt to the person on the receiving end.

2.3 The adoption of this guidance is and remains voluntary and no members of staff have been pressured to follow it. A communication was sent to staff following the adoption of the Equality Policy to bring the matter to their attention. Accordingly, following this soft roll out, the take up of the use of pronouns on email signatures has remained relatively low within the organisation. This was not unexpected although it is hoped that this situation will change organically over time as the benefits of it are seen.

2.4 The Solicitor to the Council has brought to our attention an article in the Compliance and Risk Journal that sets out the opinion that it would be more appropriate to provide staff with the space to include their pronouns should they want to rather than 'encouraging' them to do so with the risk of them feeling pressurised to do so. In such circumstances the Council could theoretically be challenged on the matter. While the risk of challenge is potentially low given the way the guidance has been rolled out to staff it has been decided, following consultation with the Solicitor to the Council and the Head of Human Resources, Payroll and Communications, that it would be sensible to address this issue as a precautionary measure to avoid any future potential for challenge.

2.5 The entirety of the changes required to the Equality Policy relate to a single line in the guidance note on pronouns. The current guidance states: "As part of the Council's

ongoing efforts to be inclusive of all gender identities anyone wishing to add pronouns to their email signature under their name and job title are encouraged to do so.”

2.6 It is proposed to delete “are encouraged to do so” and replace it with “may do so if they wish to”.

2.7 The proposed amendment would therefore read: “As part of the Council’s ongoing efforts to be inclusive of all gender identities anyone wishing to add pronouns to their email signature under their name and job title may do so if they wish to.”

2.8 This change does not change either the intent or the application of the policy but does reduce the potential for challenge to the policy through clarifying the language in respect of its intent.

3. **Identification of Options**

3.1 Option 1 – To agree the proposed change.

3.2 Option 2 – To not make any changes to the Equality Policy.

3.3 Option 3 – To make a different change to the Equality Policy.

4. **Evaluation of Options**

4.1 Option 1 is the recommended option as it reduces the potential risk of challenge to the Equality Policy while also maintaining the intent that was introduced in 2022 to support staff in expressing their pronouns should they wish to.

4.2 Option 2 is not recommended as it does not address the potential weakness in the policy as drafted. While the risk of challenge is low on the current policy due to the way it has been rolled out, it is not considered prudent to leave the matter unaddressed now that it has been identified.

4.3 Option 3 is not recommended. However, if this is the preferred option it is requested it be raised in advance of the meeting to allow for a Legal and Human Resources opinion to be obtained.

5. **Resource Implications**

5.1 There are no resource implications beyond officer time in amending the electronic Equality Policy document to reflect the change.

6. **Climate Change and Environmental Implications**

6.1 There are no climate change or environmental implications arising from this report.

7. **Corporate Implications**

7.1 Comment from the Director of Finance (linked to the MTFP): Accountancy have been consulted and have no further comments. (SK)

7.2 Comment from the Solicitor to the Council: The Solicitor to the Council has been consulted in the preparation of this report and has no further comments to make.

7.3 Comment from the Equalities Officer: The Equality Officer has been involved in the development of this report and has no further comment to make other than to remind members that in discharging their responsibilities they are required to comply with the public sector equality duty as set out in section 149 of the Equality Act 2010 <http://www.legislation.gov.uk/ukpga/2010/15/section/149>

INTRODUCTION

The Dover District is a vibrant district that is culturally, economically, and socially diverse. The Council values this diversity and aims to support and encourage it.

Our aspiration is for a district where everyone shares in the district's prosperity, is respected, and treated fairly. To achieve our vision for inclusion, equality, and fairness in the district the Council will lead by example, work with others, invest in communities, and listen when people tell us how we can do better.

The Council has a key role to play in tackling inequality. We are committed to eliminating all forms of discrimination and we will treat people with dignity and respect and help people to be safe and socially included. We believe that everyone we deal with has a right to expect and receive high quality services that are appropriate and relevant to their needs and will be proactive in removing any barriers that might exist for users of our services.

We are committed to actively promoting equality of opportunity and diversity in employment and the delivery of services. Additionally, with diversity comes opportunity, in the form of a wide range of skills, talents, experience, knowledge and abilities. The Council is more likely to attract people from a wider pool of talent if it is explicit in its commitment to diversity and can demonstrate this through how it operates. Staff are more likely to perform well, feel motivated and committed and therefore be retained if they feel valued and respected in their working environment.

This policy sets out our equality objectives, key principles, the duties that inform our responsibilities and how we will deliver on these responsibilities. It guides the work of all staff, our contractors, and our District Councillors as we deliver public services. By defining our priorities for the coming years, we enable a consistent corporate focus on achieving greater equality of opportunity and inclusion in our district.

1. THE DOVER DISTRICT

The Dover District has a population of 116,400.

According to the 2011 census details, the district has slightly more females than males at 50.6% and 49.4% respectively. The population of the Dover District is expected to increase by 10.7% between 2018 and 2038.

The population of the Dover District is predominantly white (96.7%) which is higher than the Kent and English average. The Dover District has the lowest percentage in Kent of residents from other ethnic groups with the largest single ethnic group after white being Asian at 1.8% of the district's total population.

In terms of religion, 64.1% of residents describe themselves as Christian, followed by 26% who describe themselves as having no religion and 0.6% who describe themselves as being Hindu.

The Dover District has an ageing population, with an average age of 43.7 years which is higher than that for Kent (41.2 years) and England (40.3 years). In total 23.5% of the Dover District's population is over 65 years of age (compared to 18.5% for England) and this is forecast to increase so that by 2038 there will have been a 53.7% increase in the number of people aged 65 years or older in the district. The Dover District has a lower proportion of young people aged 15 years or younger (17.5%) and of people aged 16 to 64 years (58.9%) than the Kent and English averages.

2. WHAT IS THE PUBLIC SECTOR EQUALITY DUTY?

As a public sector organisation, the Council follows the Public Sector Equality Duty under the Equality Act 2010, to protect individuals from discrimination based on their protected characteristics. These protected characteristics are:

- **Age**

A person belonging to a particular age (for example 32-year-olds) or range of ages (for example 18- to 30-year-olds).

- **Disability**

A person has a disability if she or he has a physical or mental impairment which has a substantial and long-term adverse effect on that person's ability to carry out normal day-to-day activities.

- **Gender Reassignment**

A person has the protected characteristic of gender reassignment if the person is proposing to undergo, is undergoing, or has undergone a process (or part of a process) for the purpose of reassigning the person's sex by changing physiological or other attributes of sex.

- **Marriage or Civil Partnership**

Marriage is a union between a man and a woman or between a same-sex couple. Same-sex couples can also have their relationships legally recognised as 'civil partnerships'. Civil partners must not be treated less favourably than married couples (except where permitted by the Equality Act).

- **Pregnancy and Maternity**

Pregnancy is the condition of being pregnant or expecting a baby. Maternity refers to the period after the birth and is linked to maternity leave in the employment context. In the non-work context, protection against maternity discrimination is for 26 weeks after giving birth, and this includes treating a woman unfavourably because she is breastfeeding.

- **Race**

Refers to the protected characteristic of race. It refers to a group of people defined by their race, colour, and nationality (including citizenship) ethnic or national origins.

- **Religion or Belief**

Religion refers to any religion, including a lack of religion. Belief refers to any religious or philosophical belief and includes a lack of belief. Generally, a belief should affect your life choices or the way you live for it to be included in the definition.

- **Sex**

A reference to a person who has a particular protected characteristic is a reference to a man or to a woman.

- **Sexual Orientation**

Whether a person's sexual attraction is towards their own sex, the opposite sex or to both sexes.

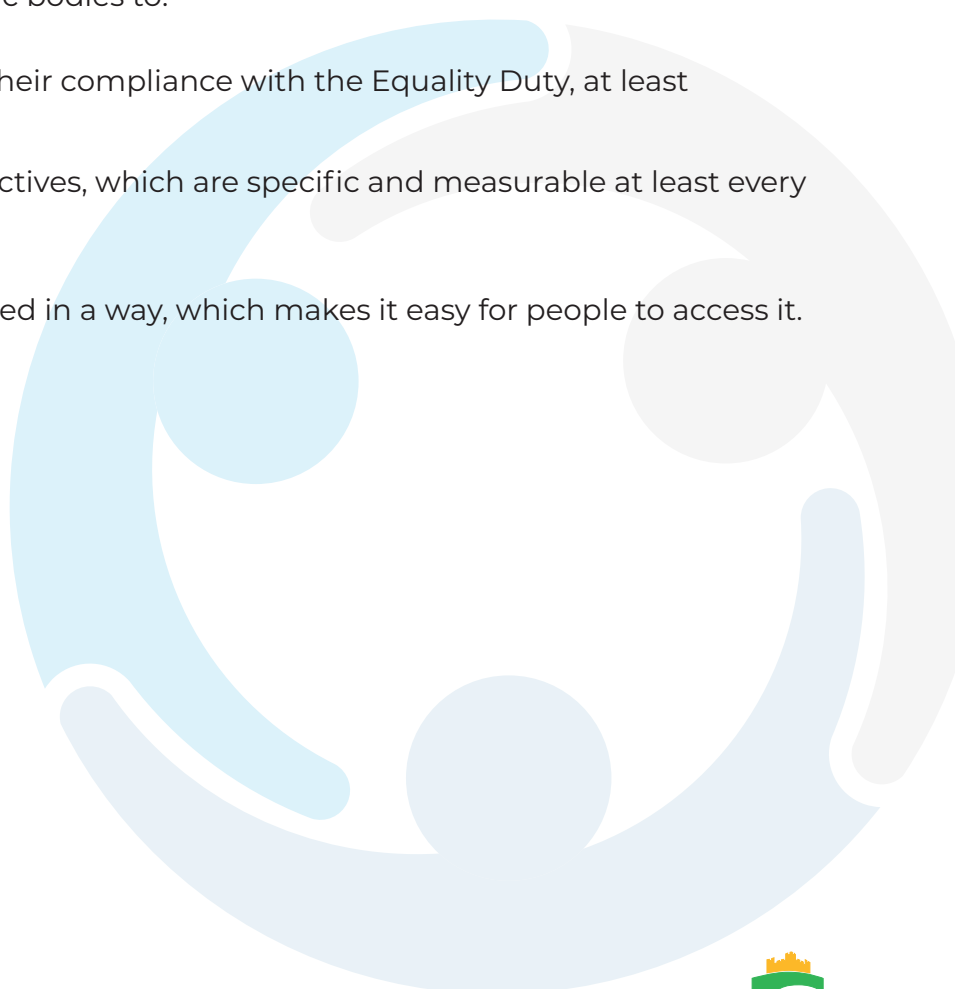

This Public Sector Equality Duty is designed to support decision making by ensuring public bodies consider how different people will be affected by their activities. It applies not only to public bodies but also applies to anyone carrying out public functions and states that they must have due regard to the need to:

- (a) Eliminate discrimination, harassment, victimisation, and any other conduct that is prohibited by or under the Act.
- (b) Advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not.
- (c) Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The Specific Duty requires public bodies to:

- Collate information to show their compliance with the Equality Duty, at least annually; and
- Set and publish equality objectives, which are specific and measurable at least every four years.

All information must be published in a way, which makes it easy for people to access it.

3. HOW WILL THE COUNCIL MEET ITS EQUALITY RESPONSIBILITIES?

Everybody has a role play in achieving this policy because all Council staff have legal duties and individual responsibilities in relation to equality. These roles are:

All District Councillors

- Championing equality within the Council, including undertaking a scrutiny role to ensure that equality considerations are integrated in the decision making and governance of the Council.
- A responsibility to consider equality and ensure that due regard is given to protected groups when making decisions.
- Leading, supporting, and advocating for the diverse people and communities they represent.

Chief Executive

- Responsible for a leadership role in the district, promoting improved understanding of equality and diversity.

Corporate Management Team (CMT)

- Members of CMT are responsible to the Chief Executive for ensuring that the Equality Policy is adhered to within their service areas and that the Council meets its Public Sector Equality Duty.
- They are responsible for ensuring that the impact of policies, strategies, projects, and functions within their service areas are assessed, and for embedding equality in the day-to-day working practices of their departments and service areas.
- They are also responsible for agreeing the Council's equality objectives and monitoring progress.

Head of Service/Managers

- Ensuring all staff are aware of their personal responsibilities in relation to promoting equalities.
- Inducting new staff regarding this Equality Policy.
- Setting clear standards of behaviours in line with the Council's values and promptly dealing with any instances of inappropriate behaviour, including discrimination, harassment, and bullying.

- Managing all staff fairly and equitably through the consistent and fair application of HR (Human Resources) policies and procedures.
- Consulting where appropriate with users of their services especially from protected groups to design services to meet the needs of the community.
- Working in partnership with other statutory and public bodies, the voluntary and private sector to develop good practice.
- Valuing all staff and providing them with the skills and training required to do their job well and to provide them with opportunities to progress within the Council.

All Staff

All employees of the Council, including those above, have a responsibility to:

- Be aware of the Council's legal equality duties and our organisation's commitments and what they mean for them in their roles.
- Treat service users, colleagues and residents with dignity and respect whilst responding positively and appropriately to meet diverse needs.
- Ensure their behaviour towards colleagues and service users is of the appropriate standard and challenging and reporting to managers incidents where equality practice has not been followed, including discrimination, harassment, and bullying.
- Encourage respect, understanding and dignity for everyone living, working, and visiting the district.
- Consider equality in the course of their work and ensure that due regard is given to protected groups at the start of and through the development of any new policy, procedure, project, or function. They should share their findings with those making decisions so that they are fully informed.
- Highlight issues in existing policies and functions for equality relevance, taking steps to mitigate any equality issues.
- Consult where appropriate with service users from the community especially protected groups to inform the decision-making process when designing services.
- Ensure that they supply enough information in their reports to enable those making decisions to pay due regard to the needs of protected groups.

All employees have the right to be treated fairly and with dignity and respect. If an individual feels that they have not been treated fairly, they can contact:

- Their manager, or the next tier manager
- Human Resources
- Trade Union

The above are expected to take such complaints seriously, to treat information confidentially, to investigate as necessary using the Council's established complaints procedure, and to ensure that no victimisation of any of the parties takes place.

All employees have individual responsibilities under the Equality Act 2010 which include:

- Not to discriminate in any matter of employment or service delivery against individuals who hold a protected characteristic and those who do not
- Not to induce or attempt to induce any colleagues to discriminate
- Not to harass, abuse, intimidate or victimise, other colleagues or members of the public
- To take appropriate action if there are apparent breaches in the policy

Human Resources

Human Resources are responsible for workforce profiling and ensuring a fair and equitable employment and equal pay policy.

Equality Officer

The Equality Officer, a member of the Corporate Services team, will collate and report on equality activity as required by legislation and provide advice on compliance issues.

The Equality Officer will also monitor progress against equality objectives and report as required by the Equality Act (2010).

Contractors/Partners

Where the Council's services are provided by external contractors or third parties based on a specification set by the Council, these contractors or third parties are responsible for implementing the Equality Policy when providing these services on the Council's behalf. This applies also to sub-contractors.

All contracts and service agreements include arrangements which make sure our funded providers can meet our legal duties for equality and inclusion. This includes a requirement to monitor services by protected characteristic and use this to inform service improvement.

The Council will monitor the performance of contractors and/or third parties and take all necessary steps to ensure good performance.

4. HOW WILL WE ENSURE COMPLIANCE?

Each Head of Service and Manager will be responsible for assessing their service areas existing and future functions, strategies, projects, and formal policies, highlighting any that may have an adverse impact and carrying out a full assessment where it is appropriate.

Equality Monitoring

Whenever the Council requests personal information needed for equality monitoring it will:

- Only ask for the information that is required
- Explain why the information is needed and how it will be used
- Ensure that individuals cannot be identified from the information collected, especially when the results are shared or made public
- Act legally in relation to confidentiality, data protection and freedom of information

Training

Appropriate training will be given to all employees on their responsibilities under the Equality Act 2010.

Complaints

If a member of the public feels that they have been discriminated against or treated unfairly especially in relation to a protected characteristic this should be reported to the Corporate Complaints Officer.

Scope of this Policy

This policy applies to all employees, volunteers, placements, contractors, and elected members of the Council and will be reviewed as and when required.

Communication

This policy will be made available via Dover District Council's website and the staff intranet.

GUIDANCE NOTE - PRONOUNS

Why are gender pronouns important?

Dover District Council is committed to equality, diversity, and inclusion. As a service provider and employer, we want people to be confident to be themselves.

If a person chooses to tell you their pronouns (in their email signature or phonebook entry, or when introducing themselves), they are simply letting you know how you can refer to them, without you having to make any assumptions.

What are pronouns (or “gender pronouns”)?

Pronouns are used in language all the time when we refer to ourselves or other people. Examples of pronouns you might use to refer to others are:

- **He/him/his** (for someone who might identify as male)
- **She/her/hers** (for someone who might identify as female)
- **They/them/their** (for someone who might not identify as male or female, these pronouns are ‘gender neutral;’ they are also used when referring to multiple people).

Why would someone tell you their gender pronouns or add their pronouns to their email signature?

If a person chooses to tell you their pronouns (in their email signature or when introducing themselves), they are simply letting you know how you can refer to them, without you having to make any assumptions.

This is important as people typically make assumptions about what pronouns to use for someone. For example, if a person’s appearance seems to be female and they have a ‘female’ name, we would be likely to use she/her/hers when talking to or about them. If a person’s appearance seems to be male and they have a ‘male’ name, we would likely use he/him/his.

In most cases this may well be the correct pronoun but that is not the case for everyone. So, when a person tells you their pronouns or includes them on their email signature, they are simply taking the guesswork away for you.

What is the Council doing?

As part of the Council’s ongoing efforts to be inclusive of all gender identities those wishing to add pronouns to their email signature under their name and job title may do so if they wish to.

The suggested format would be as follows: (Pronouns: she/her/hers);
(Pronouns: he/him/his); (Pronouns: they/them/theirs).
