

Scrutiny (Community & Regeneration) Committee
Wednesday 19 April 2017 at 6.00pm
Key Questions for Community Safety

Performance

- Q1. How do you assess the effectiveness of the Community Safety Unit – qualitatively and quantitatively?
- Q2. What are your current priorities, and how are these selected?
- Q3. What sort of information will you be providing about Anti-Social Behaviour incidence on a ward basis – the previous statistics were rather confusing in relation to what was included and what was not.

Procedures

- Q4. Once Cllrs have alerted the CSU to a problem, what sort of procedures do you have in place to ensure that councillors are kept informed at all stages about any attempts at resolution?

CCTV

- Q5. How many mobile CCTV cameras are at the disposal of the CSU?
- Q6. Where are these cameras currently deployed?
- Q7. Are they effective in reducing antisocial behaviour?
- Q8. Are they monitored at distance or do they record and then have to be accessed?
