### **Key**

**Referrals** come in various forms – self referrals and /or agency referrals. The 132 showing for December also includes October and November and does not necessarily directly equate to actual cases. Some of these may be duplicates sent in via various agencies.

**A triage case** is a case where a completed referral form has been submitted either as a self referral or an agency has completed and submitted it on a customer's behalf.

**A prevention case** is a case where we are working with the customer in their current accommodation and trying to ensure they remain there. We do this in a number of ways – applying for Discretionary Housing Payment to clear any rent arrears; negotiating with landlords or bailiffs where we can to extend the tenancy; negotiating with family to keep their children at home; etc.

**A relief case** is a case where the customer is now homeless. We have a duty to relieve that homelessness if the customer satisfies certain criteria. At this stage we would consider whether we have a duty to place them in temporary accommodation.

**Care flags** highlight cases where staff are required to take care when seeing a customer due to previous threatened or actual violence. This forms part of our risk assessment process to ensure staff safety is not compromised.
