<p>Brief Details of Item: (Please provide information about the contents of this item and the reason for decision.)</p> <p>This project is a pilot involving various properties in Aycliffe. The aim of the project is to test the efficacy and efficiency of undertaking simultaneously the maintenance/replacement of the components that comprise the external envelope of the properties. If the project proves successful, the model will be replicated in the maintenance programme for the whole Dover District Council estate. The work consists of replacing the roof covering, renewing rain-water goods, replacing windows/external doors and repointing (as necessary).</p> <p>The East Kent Housing planned maintenance programme has, for various reasons, fallen behind schedule, leading to a backlog of maintenance work. Delivery of this pilot project in 2020 will avert further delay and send a signal to tenants across the estate that Dover District Council takes the maintenance and enhancements of the properties seriously, recognising that these properties are also people's homes.</p> <p>The decision is being taken under delegated powers, assigned to the Strategic Director (Operations & Commercial) as part of the framework for returning the housing service to direct Dover District Council control.</p>			

Deadline for Item:

(Please indicate the date and whether this is statutory, operational or to meet the requirements of another agency.)

The decision needs to be made by 25 August in order for the contractor to mobilise at the end of August. The contract period is 15 weeks and is reliant on relatively good weather because work includes replacing roof coverings and renewing windows.
