

Equality Impact Assessment

Appendix 2

The Public Sector Equality Duty placed a duty on all public bodies to have due regard to the need to:-

- Eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Act;
- Advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not.
- Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The duty has the following three aims:-

- To remove or minimise disadvantages suffered by people due to their protected characteristics.
- To take steps to meet the needs of people with certain protected characteristics where these are different from the needs of other people.
- To encourage people with certain protected characteristics to participate in public life or in other activities where their participation is disproportionately low.

The protected Characteristics are:-

- Age
- Disability
- Gender
- Gender reassignment
- Pregnancy and maternity
- Race
- Religion, belief or lack of belief
- Sexual orientation
- Marriage and Civil partnership. (For this characteristic the duty only applies to the first aim to eliminate discrimination)

What we need to do when preparing to do something new or writing a report.

The three aims of the duty may be more relevant to some functions than to others. How much due regard is required depends on the individual circumstances of the decision.

In some cases you may conclude that Equality is not relevant at all, or that you have already addressed equality issues in your preparatory work, in which case you can just put a simple paragraph in your document for decision maker's information.

This document is a tool designed to help you determine how relevant your proposal is to the duty and also to the protected characteristics. You could also include it in with any Committee Reports for decision maker's information, or you could summarise it within your report, but the information you gather must be available to those making the decision.

Since the Equality Act became law there have been several court cases where Councils have been challenged as to whether or not they have complied with the duty when making decisions, these have established case law principles and are known as the "Brown" principles.

These principles are that:

- Decision makers must be made aware of their duty to have 'due regard' to the identified goals.
- The due regard duty must be fulfilled before and at the time that a particular policy is being considered by the public authority in question.
- The duty must be exercised in substance, with rigour and with an open mind.
- The duty imposed on public authorities ... is a non-delegable duty.
- The duty is a continuing one.
- It is good practice for those exercising public functions in public authorities to keep an adequate record showing that they had actually considered their ... duties and pondered relevant questions.
