

### Summary of Key Points Raised by Responders

(Proposed Extension to Zone F & addition of new 'Resident Only' Zones in Goodfellow Way and Hewitt Road)

**Response to proposals to Zone F:** Objections 13, Support 9

#### Key points raised by Objectors:

- No, but no comment
- No, but no comment
- No, but no comment
- Can park OK. Not a problem.
- Not fair, why should residents have to pay? 4hr l/w is unfair when HGV's park overnight, sometimes with refrigeration unit running.
- Residents of Dour Street park in Hewitt Road so as not to purchase a permit. They also repair vehicles and obstruct emergency service vehicles.
- Visitors are unable to park for long. This is pandering to the wishes of the minority instead of listening to the whole community.
- I have rear access to Goodfellow and do not find parking a problem.
- Keep Goodfellow for residents parking only.
- As Dour Street is now a lorry park, why should we pay to park? Lorries park for free overnight with refrigeration units running.
- My wife is disabled. When are you going to stop Port traffic using Dour Street as a lorry park?
- Has back entrance to parking area and there are generally 8 spaces there, so no problem with parking, why does it have to change?
- I am against it.

#### Key points raised by Supporters:

None

## 'Resident Only' Zones

**Response to proposals:** Objections 10, Support 2

### **Key points raised by Objectors:**

- Private land get a company in to patrol at no cost to Council or residents.
- Does not agree, do not wish to purchase visitor tickets; The entrance to Goodfellow Way which is not covered is always parked on and hard to pass why cannot that part of Goodfellow Way also be restricted to residents only.
- We do not have a car, "BUT" if a family/friend visit (max stay usually approx. 1 hour) why on earth should we have to pay for this, absolutely abused. Please leave the facility as it is most of the residents are pensioners and these charges are unjust. park.
- I have lived here for 6 years and NOT once have I had trouble parking. I park in the parking near my flat NO problem at all. If you are proposing to go through with this why is it not charged on the SIZE of the vehicle and not on the omissions as I have seen massive cars parked with no C02 and tiny high-powered ones.
- Not able to afford to pay for a permit. Sorry, plus I rely on my visitors. I live on my own my carers and visitors come regularly I could not afford these fees. My family come 1-2 times a year normally from the North so buying tickets would be unhelpful to me.
- Do not believe the Council to park outside home. It is now 10.15am and there are 8 empty spaces. I see no reason to pay the Council, for what, we do not even get a road sweeper once a week.
- Main problem is Dour Street residents parking in Hewitt Rd. Why should Hewitt residents pay to park?
- Shouldn't have to pay to park outside our home and we never see a road sweeper. It is now 10.15am and there are 8 empty spaces.
- It will be impossible to enforce. I cant see it working. People live in Dour Street park in Hewitt Road and people who work in town park unless you get gates it wont work.
- Never had any problem parking ever. Another tax on the poor. How can we pay this we are on disability benefits and need the car because we cant walk far, this is a cruel, unnecessary and be detrimental to our physical and mental wellbeing.

### **Key points raised by Supporters:**

- And to make it 24hrs and if you don't have a car you can't pay for your granddaughters to park.
- I work full time and start work early in the morning and other times I finish work at 10pm. I would feel safer to be able to park in our car park of Goodfellow Way. So, residents only is/would be welcome and feel safe. Ladywell House flats have resident private parking so Goodfellow Way should too. We are an ageing community some residents have mobility and health issues. Parking close to home would benefit them to.
