

Appendix D

Hi

I have just received a letter in regards to a planning application for chairs and tables outside the bar.

I want to say no to this planning application as the noise outside is always unbearable at the best of times. I have to clear up all the cigarette butts and pee as they use my alley way for this. People also sit on my window ledge and use it as a chair.

It's starting to be very stressful and my my partner hates the weekends due to this.

People are still standing outside with their pints and shouting.

Can you please sort this issue out.

Kind regards

Peter
