

The amended plan shows the reduction in the number of chairs (6 Tables and 12 Chairs) and the measurement of space between the proposed tables and chairs and the existing benches.

The applicant believes that this reduced number will allow for sufficient space between the tables and chairs and the existing benches. The applicant has also stated that the alleyway between the venue and Poundland will not be impacted in any way by the tables and chairs.

This information has been shared with those people who have made a representation, no response has been received as yet.
