No	I am utterly against the proposal for dogs to be kept on leads in the large park area of cowdray square. We have been ball throwing here for many years and now you wish to confine us to the small uneven area that is actually somewhat unsafe for dogs to run around as it has holes and very uneven ground meaning they can easy twist their leg. Since you installed the football posts the difference in the park is the amount of litter, disposal vapes, drinks cans (dangerous as sharp) , crisps packets, fag butts and so on. It's not dogs that are the problem . The small area that is enclosed is ideal for those with no recall of their doors. Those of us that have well trained dogs should not be banned from the larger area because of the minority.

**Woodnesborough Village Hall Green, Elmwood Park, Woodnesborough**

<b>Do you support the proposals</b>	<b>Should you wish to make any comments please add these here</b>
Yes	I support the proposal as it is in keeping with the way other play areas deal with dogs

Yes	Support that dogs should not be allowed in this area, but does it really need to be enforced as a PSPO?? Seems overkill.
No	Currently, dogs are banned from the enclosed Children's Play Area; the proposed change would remove this, with dogs being permitted on lead in the enclosed area. For hygiene and continued lack of responsible dog ownership in Woodnesborough, regarding dog fouling, my concern is that the proposed changes would result in dog fouling within the area, thereby making it unsafe for children. Please could the PSPO be altered to exclude dogs from the area.

**Rewording of Part 5 – "Consumption of Alcohol in Public Spaces" to clarify where the restrictions apply.**

No	I can only see the outline of the whole District which from my reading of Appendix 1 means that anybody consuming any alcohol in any public space across the District will be in breach of the PSPO. If I am mistaken I would be grateful if there were further explanation provided.
Yes	Stop people drinking alcohol in the market square. There has been so many issues over the years with drunks upsetting the members of the public as well as disturbing events.
Yes	The alcohol restrictions in Market Square Dover need to be increased to ban 'public drinking'. Alcohol consumption should be in licensed premises only. You have worked so hard to make the square a lovely public space for families & tourists but it is horrible for them to have to put up with alkie and druggies while they try to have a nice day out.
