

Dover District Council
Overview and Scrutiny Committee
Port of Dover

- Q1. What plans are there to ensure a response to climate change?
- Q2. How does DHB see itself working alongside DDC regarding local development/tourism?
How will it link access from cruise terminal to the town making Dover a destination port rather than a town to travel to on the way to London, Leeds Castle, and Dover castle?
- Q3. How will air quality be maintained with the probable proposed plans to further increase freight traffic and handling?
- Q4. How does DHB see the development of cruise traffic and tourism alongside the increased parking for and management of freight?
- Q5. Please could DHB provide an overview of their 'masterplan' process/timing and an update on progress and plans for the Western Docks redevelopment, including the Marina curve hotel, De Bradelei wharf site and future of Wellington Dock and adjacent Marina.
- Q6. Could DHB provide an update on the introduction of the electronic entry/exit system and associated infrastructure that might be required
- Q7. Could DHB provide an overview of how ferry traffic/usage has recovered following the pandemic, including information on the impact of Irish Ferries introducing services and the arrival of new, modern ferries by P&O
- Q8. Could DHB provide an update on the Levelling Up Fund grant award to improve roads and infrastructure around the eastern docks.
